## ECI Learning Systems

### What Our Clients Say

*"I have been active within the business community in varying roles for the past 20 years and had always considered myself a good communicator. Therefore, I was somewhat skeptical that there was anything in this class I didn't already know. Ultimately, I was surprised to learn valuable techniques I'd never considered before. This course is a must for management and will give you the edge when communicating with your peers and employees."*

**R. Long**  
Management Consultant

### USA Statistics

*51% of all US workers are uncommunicative and disengaged. Engaged employees, however, are far more communicative and charitable to their supervisors*

**Gallup Management Journal**

*The cost is high for disengaged workers. In many companies, a lack of employee engagement is costing the organization anywhere from 35% to 50% of payroll.*

**The Gallup Organization**

**ECI Learning Systems**  
Educate • Communicate • Integrate

### The ECI Learning Solution

ECI Learning Systems, LLC works to foster employee engagement and create an environment where your employees love to come to work and strive to do their very best every day; where your employees and leadership are aligned and moving toward a single common vision.

The ECI Learning philosophy is based on four leadership principles:

- ❖ Establish a Clear Vision
- ❖ Communicate Openly and Honestly
- ❖ Hire and Develop Talented People
- ❖ Engage Your Employees

By integrating these principles, organizations create workplace energy and engage their workforce. Studies show that, when employees are engaged, they are happier, work harder, demonstrate more creativity, and take better care of your customers. This leads to higher employee retention, improved productivity, and increased profitability for your business.

### Testimonials

**Sandy Prichard, Executive Director of Castle Rock Senior Center**

Course: Improving Workplace Communications

*"It was fun, lively, and never a dull moment. I learned a lot about myself and my staff; how I work with them and communicate with them... it was an all around very positive experience with Dave and Laurie; I think I read people better, I read the way they communicate and process information better, and that helps me adjust the way I communicate with others."*

**R. Tafoya, Verizon Business**

Course: Improving Workplace Communications

*"After taking the class, I have a better understanding of the difference between the person I thought I was and the person I truly am. It helped me communicate with my co-workers, as well as people in my personal life. I would definitely recommend this course to everyone; it was fun and educational. There are not a lot of classes that can keep my attention, but this one did. I believe it has helped in all aspects of my life, not just work."*

**J. M. Romersheuser, Region I Conference Coordinator, Colorado School of Mines, Society of Women Engineers Section**

Program: People-Reading Goggles: The Secret to Successful Communication

*"On behalf of Colorado School of Mines SWE, I would like to thank you for participating in our Region I Conference. Your expertise in breaking down communication styles has provided our participants with new insights and perspectives to use in their daily lives."*
